DFARS STATEMENT

SUBJECT: DFARS COMPLIANCE

Dear Customers, Vendors and Industry Partners,

The information and links in this section will help you to understand the position of MMB Bearings Co., Inc. concerning DFARS regulations and related amendments. We are a supplier of precision bearings, many made from stainless steel; also referred to as “specialty metals” in the DFARS Clauses: 252.225-7014 and 252.225-7016.

Due to the slowdown of DFARS 252.225-7014, we are experiencing delays in quoting and significantly increased costs due to special handling and higher base costs; in some cases we cannot supply compliant parts.

All DFARS 252.225-7014 requirements must be stated at the time of quotation request and we will make every effort to meet these requirements. However in most cases we expect delays and increased costs or will advise the lack of product availability unless this requirement is waived.

In supplying products to our customers, it is our intention to insure all products are in compliance with the above referenced laws (if requested). As a distributor, we are not directly in control of the manufacturing processes and therefore, can only pass along our supplier’s compliance to these regulations.
